

RESOLUTION NO. 1-10UB

A RESOLUTION AMENDING RATES FOR THE MUNICIPAL WASTEWATER SYSTEM

WHEREAS, the Municipal Utility Board of Trustees has the responsibility of operating and maintaining the City of Bellevue Municipal Wastewater System, and

WHEREAS, that responsibility includes insuring the financial stability of the system, and

WHEREAS, current obligations necessitate adjusting the present rate structure

NOW, THEREFORE BE IT RESOLVED that the following Wastewater rates are adopted:

1. Wastewater rates will be assessed based on the volume of water consumed by the user. The rate per cubic foot of water used will be 2.91 cents
2. In addition to fees for consumption a facility charge will be assessed to each user.

The criteria for determining whether a facility charge should be assessed will include but not be limited to the following:

A. The customer must be connected to the service (either water or sewer) and/or the customer must have access to a City water or sewer main without crossing property not owned by them.

B. The customer must have at least one of the following:

- City water meter
- City electric meter
- Municipal cable connection

C. The facility charge will not be assessed to more than one structure on each parcel of property unless the parcel is used for more than one purpose or has more than one user.

The rates for facility charges will be as follows:

Residential customers

Single Family	\$15.00
Multi-Family	Single metered – current facility charge multiplied by number of units
	Multiple metered - A facility charge will be assessed for Each meter

Commercial Customers

Average residential usage is approximately 450 cubic feet of water per month or 5400 cubic feet per year

Usage (Yearly)

0 Cubic feet – 5400	\$15.00
5401 – 10,800	30.00
10,801 – 21,600	45.00
21,601 – 100,000	90.00
Over 100,000	125.00

3. Customers with private water supplies that are connected to the municipal wastewater system will be assessed a charge equal to the following:

Average household usage of 450 cubic feet per month multiplied by the current consumption rate plus the current facility charge.

Based on the current rates : 2.91 cents per cubic foot = \$13.10
Facility charge 15.00
\$28.10

4. Connection Fee. Before any connection to the city sewer main is made, a fee will be paid to cover the cost of connection. The fee will be as follows:

Sewer Connection \$325.00

Passed and approved this 11th day of February, 2010.
